

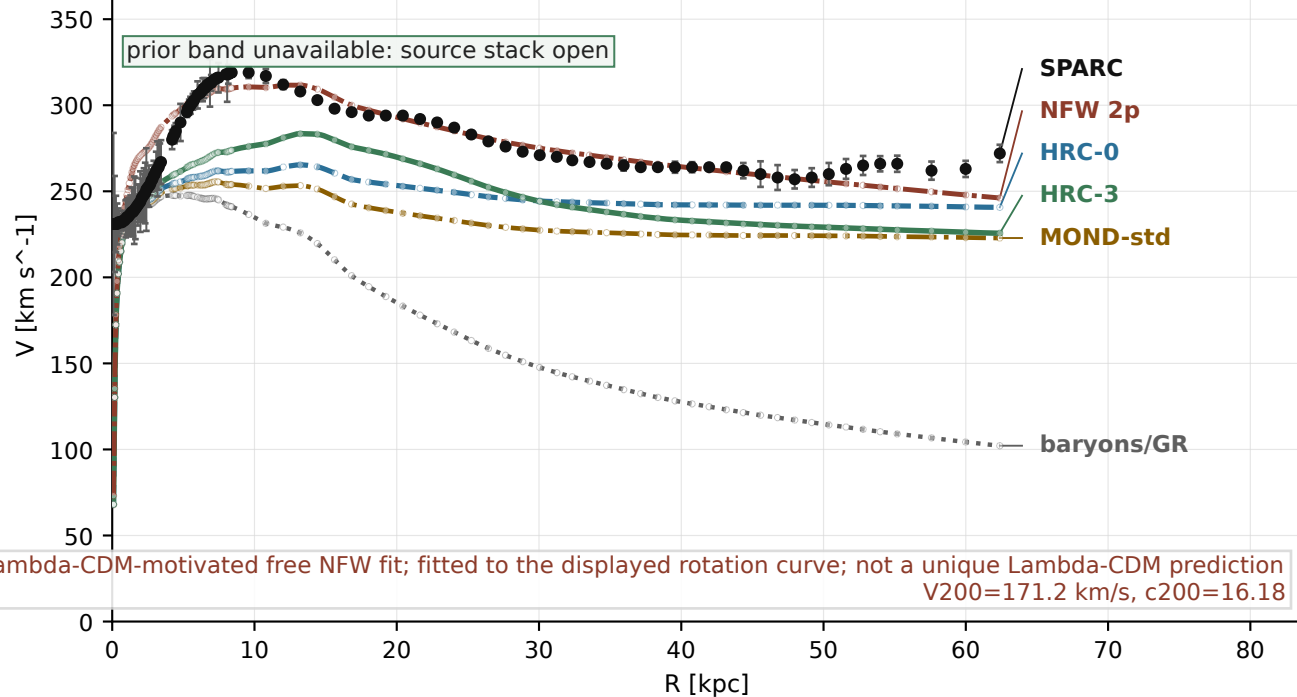

fig20_a: post-hoc residual-stress external-comparison atlas

- SPARC observations
- baryons / weak-field GR
- MOND-standard
- HRC-0
- HRC-3
- NFW two-parameter fit

UGC02953 — HMF mean-domain: IN

Post-hoc residual-stress selection; HRC traces are held-out five-split means

Post-hoc residual stress; not held-out model selection. External comparators: fixed R_{102} M/L.
